

SELMAX Sign Systems

Seriously Superior - Professional - Functional

INJECTION MOULDED SIGNHOLDERS

State of the art styling, injection moulded from engineering plastic for durability and aesthetic appeal. Selmax signholders convey a professional image essential to serious Real Estate Salespersons.

DIMENSIONS

Signholder: width 480mm, Height 700mm

Signage Dimension: width 450mm, Height 300mm

BENEFITS

- Professional Presentation
- High Visibility (Colour Options)
- Enables longer signage life
- One piece sign is quickly, easy & cleanly positioned
- Lightweight for ease of handing and transportation
- Interchangeable signage

CARRY CASES

- Keeps you and your car boot free of dirt and grime.
- Protects your car boot from damage during transportation.
- Constructed from rip-stop PVC, triple reinforced in pin area, finished with black edge binding.

TWIN CIRCLE STAKE

These signs are lightweight and compact making them great for regular relocation and transporting. Two large rings at top and bottom make changing panels a breeze for specials and promotions.

A simple spike end creates minimal damage to lawns so you don't have to worry about using them on site, at open homes in customers grass.
